

CALL FOR PAPERS!

The first regional book regarding Techniques, Issues and Projects (T.I.P.S) is being developed to help fill some voids not well covered by the volumes Engineering Geology in Northern and Southern California. A new two volume set entitled APPLIED GEOLOGY IN CALIFORNIA will be designed as a professional reference and may be useful to graduate students. In addition a number of practice cases will highlight changes in practice since the Engineering Geology Practice in Northern California was released in 2002. This call for papers is for the second volume of the two volume set and is designed to cover hydrogeology and environmental issues.

The initial chapters are entitled:

Chapter 1: DATA ACQUISITION

Chapter 2: DROUGHT

Chapter 3: AQUIFER STORAGE AND RECOVERY

Chapter 4: SURFACE WATER AND CONJUNCTIVE USE

Chapter 5: LAND SUBSIDENCE RELATED TO GROUNDWATER WITHDRAWAL

Chapter 6: ENVIRONMENTAL ISSUES – MONITORING

Chapter 7: ENVIRONMENTAL ISSUES – RISK ASSESSMENT AND CLOSURE

Chapter 8: FRACKING

Chapter 9: MODELING

Chapter 10: LEGISLATION AND REGULATION

Chapter 11: MISCELLANEOUS

All reviews are to be anonymous. We will be needing reviewers as well as authors. The target release date will be late 2015. The Publisher will be Star Publishing in Menlo Park, California. The volume will be hard bound with a CD for graphics and spreadsheets. The Volume will also be available electronically. If you are interested in learning more about the volume please call Garry Maurath at 916.752.3016 or Lindsay Swain at 916.679.2229, or email Garry Maurath at gmaurath@yahoo.com.

Draft titles and abstracts with lead author information are to be submitted to Garry Maurath via email and are requested by January 15, 2014. If accepted, completed first complete draft papers will be due on or before June 1, 2014.
