The Association of Environmental & Engineering Geologists

Connecting Professionals, Practice and the Public

The Association of Environmental & Engineering Geologists (AEG) is pleased to announce the Winter, 2012 series of review courses for the ASBOG®geology licensing exam taught by REG REVIEW, Inc. AEG and REG REVIEW, Inc. have partnered to provide these courses since 1992. In the Winter of 2012, ten one-day review courses for the ASBOG®licensing exam will be offered regionally throughout the U.S. These ten courses will be spread out into the following regions, the West Coast including a course in both Northern and Southern California (the CA courses are now presented in 2 sections - 1 day for the ASBOG®and part of a day for the CA Supplemental), the East Coast, the Central U.S. Region. Specific locations are listed below.

REG REVIEW's approach is to give you the focus and direction needed to appropriately study for the exams. The emphasis of the topics in the course is based on the emphasis on the exams. We cover the approach of the exam and highlight the types of information you would need for exam level questions. For specific information on our course content and study materials please visit our website at regreview.com.

REG REVIEW, Inc students typically have a pass rate that is 20% to 25% higher than the National average. Our success rate has ranged from 85% to 99% on both exams since we began teaching to the ASBOG®exam in 2000. The National pass rate during the same time was 55% to 63% for the FG and 61% to 80% for the PG. With the current state of the economy, can you afford to not pass the exam the first time you take it?

Who should take this class? Anyone who feels they need help getting the focus and direction needed to be able to streamline their studying process to adequately address the topics covered by the exam.

Course dates and locations are as follows:
(For more specific location information please go to our website at
<http://regreview.com/2012wintercourselocations.html>)

Courses for the California Supplemental Exam only are \$195 for AEG members, \$210 for nonmembers
Preregistration deadlines for the Winter, 2012 courses are a postmark or online registration date of:
December 15, 2011 for all West Coast courses; December 24, 2011 for all Central U.S. courses; and
December 31, 2011 for the Eastern Region courses.
Registrations are still accepted after this preregistration deadline but there is an additional fee of \$50.

Included in the course price are the set of Study Manuals pertinent to the exams you are taking and a packet of course notes (80 pages) that we have developed to present material that is new to the exams and to address important topics. The course notes are only available to our students.
Discounts are available to those who have purchased the books already.

REG REVIEW, Inc. has been teaching these courses in California since 1985. In March 2000, we began to direct our teaching towards the ASBOG@geology licensing exam. The courses are taught by Patti Sutch, CA PG 3949, CA CEG1641, and CA CHG 25, Lisa Dirth, CA PG 3951, CA CEG 1240, NC RG by ASBOG exam, and Elisabeth Ervin-Blankenheim, PA PG and past student of REG REVIEW.

Current information on study manuals, flash cards, and courses, including specific locations, may be found online on REG REVIEW, Inc's website at <http://regreview.com> To contact REG REVIEW Inc.: e-mail - regreview@aol.com, mailing address - 2035 Bluebell Ave, Boulder, CO 80302 , telephone - call Lisa Dirth in Colorado at **603-714-4841**. or evenings you can call Patti Sutch in California at **916-456-4870**.

Please pass this information on to any geologist that you know that might like our help for preparing for the state licensure examinations. Thanks.
