Chapter President Message

Greetings CA Central Coast Chapter:

Unfortunately, the June monthly meeting is cancelled due to the lack of an available speaker. However, we have an exciting list of speakers from July through September (see above). The Chapter is currently looking for monthly meeting sponsors for these upcoming meetings. Please support our Chapter and get recognized for contributing to our professional sustainability.

Congratulations to all of the Central Coast Chapter members who recently obtained new professional licenses as Professional Geologists, Certified Engineering Geologists, Certified Hydrogeologists, or Professional Geophysicists.

AEG National recently emailed members that there is an extension until July 7th to submit abstracts for the AEG 2006 Annual Meeting to be held in Boston, MA. The formal announcement is included in this newsletter.

I look forward to seeing at the upcoming meeting!

*Best of regards,
Robert J. Urban
Chapter President
AEG CA Central Coast Chapter*

Announcements

Please email announcements to lavapoet@verizon.net, thank you.

INTERESTED IN ATTENDING A SOIL LOGGING CLASS?

The AEG CA Central Coast Chapter is interested to know the level of interest from members interested in participating in a Soils Logging Class.

The course would be instructed by **Dr. Glenn Borchardt**, *Soil Tectonics, Inc.*, whom will teach soil logging techniques that will empower geologists in their descriptive and interpretive soil logging abilities. These techniques are valuable for trench logging, identifying man-made fill from native soil, and relative age-dating techniques.

It is estimated that the course may cost from \$300 to \$350 per attendee. If you are interested and believe you would attend such a technical short course, please email Robert Urban (lavapoet@verizon.net). If there is enough interest, the Chapter will proceed with organizing the technical short course.

SUMMER 2006 REVIEW COURSES for the ASBOG GEOLOGY LICENSING EXAM

The Association of Engineering Geologists is pleased to announce the Summer 2006 series of review courses for the ASBOG geology licensing exam taught by REG Review, Inc.
