

**ASSOCIATION OF ENVIRONMENTAL &
ENGINEERING GEOLOGISTS**
SOUTHERN CALIFORNIA SECTION, SAN DIEGO CHAPTER
"Serving Professionals in Engineering, Environmental and
Ground-Water Geology"

San Diego Chapter, December 2007 Newsletter

AEG MEETING NOTICE: TUESDAY, DECEMBER 11, 2007.

We're on our OWN...AEG is proud to announce its last meeting of 2007. Social period starts at 6:00 PM, with dinner at 7:00 PM and the presentation; **The History and Geology of Oenology in San Diego County** shortly after dinner. Cost is \$30 for members, \$35 for guests, and \$10 for students. The meeting will be at the fabulous **Black Angus Restaurant** (where America eats) 5247 Kearny Villa Road, San Diego (858/279-3100). Please RSVP with Lesley Barnes at Tetra Tech (lesley.barnes@ttemi.com).

Our speaker for the Tuesday night meeting is Mr. Richard L. Carrico. Richard has a BA in history and anthropology from San Diego State University and a MA in history from the University of San Diego. Richard is a principal in the firm Recuerdos and has been active in the field of cultural resources management for more than 30 years. You may have run into him at Jones & Stokes, Mooney and Associates, Ogden or ERCE, where he supervised historic and prehistoric archaeological studies, surveys, evaluations, and mitigation monitoring. He is an expert in Native American culture and history and makes a mean petite syrah.

Mr. Carrico will speak to the history of winemaking here in San Diego County, the geological constraints and opportunities for local oenologists. Finally, he may answer that age-old question; what wine goes with Loaded Idaho Potato Skins?

No AEG Meeting in January,

We are always in need of interesting talks in the environmental and engineering geology arenas. Please send your ideas in to steve.bradley@ttemi.com .

NOTES FROM THE FIELD:

Hey, it must be December or a recession; there are no notes from the field.

NOTES FROM THE ADMINISTRATION

We are currently looking for a few good men and women to pick up the reins for next year. If you are remotely interested, please contact Steve Bradely (steve.bradley@ttemi.com) or Lee Vanderhurst (lvanderhurst@geotechnicsinc.com).

EMPLOYMENT

Tetra Tech EMI, a global leader in environmental consulting, is looking for entry level geologists or environmental engineers for an immediate position in San Diego, California. Candidates should have a BS degree in geology, engineering, or similar. The candidate must be able to work within a team environment, be a self-starter, possess strong organization/communication skills, familiarity with basic environmental sampling protocol, preparation of Environmental Site Assessments and OSHA 40 hour certification a plus. The position requires a minimum 6 months of related experience in Geology, Hydrogeology or Environmental Engineering.

Responsibilities will include working with a professional team on a variety of private and local or federal government/military environmental projects. Day to day responsibilities will include: conducting environmental site assessments; subcontractor management; technical report writing; collection of soil & groundwater samples; site inspections; and analytical data evaluation. Please contact Steven Bradley at (619) 321-6717 or via email at steve.bradley@ttemi.com.

As a service to our members, AEG San Diego welcomes job postings - either for open positions or jobs wanted. Please contact Lee Vanderhurst (lvanderhurst@geotechnicsinc.com) for information on advertising in this newsletter. The cost for an ad is \$25 per month
