

# LANGAN

## Engineering Geologist - 10+ Years Experience

Langan is an award-winning ENR Top 500 Design Firm that offers integrated engineering and environmental services for both public and private sector clients at sites located throughout the United States and abroad.

**Langan is seeking an Engineering Geologist to be based in either our Irvine or Los Angeles, CA office.** As the successful candidate, you will have a minimum of 10 years of experience in consulting and you are a registered Geologist and preferably a Certified Engineering Geologist in the State of California.

### **Job Responsibilities:**

- Develop scope and execute field investigations;
- Identify and implement field and lab work solutions;
- Identify and characterize geologic hazards in the field;
- Research and compile geologic data for projects;
- Work with engineers to provide geologic support with respect to impact of site geologic conditions to site structures;
- Collaborate with Langan Geology staff in other offices;
- Work on projects throughout California and occasionally other parts of the United States;
- Develop geologic cross sections, geologic maps, and other pertinent figures for project reports;
- Provide technical direction and oversight to staff;
- Prepare and review logs and reports;
- Interact with clients and contractors;
- Develop and grow client relationships; and
- Manage projects and budgets.

### **Job Requirements:**

- Bachelor's degree in Geology required; Master's degree preferred;
- California Professional Geologist (PG) license registration required; California Engineering Geologist (CEG) preferred;
- Minimum of 10 years of experience in the field of engineering geology;
- Experience with geologic hazard investigations, with emphasis on landslide, A-P fault rupture evaluations, and rockfall projects;
- Experience with performing detailed geologic mapping at a professional level;
- Experience with reviewing and interpreting stereo-paired aerial photographs;
- Ability to effectively communicate technical details to clients, co-workers and staff; and
- Excellent technical writing skills.
