## DINNER MEETING

- Wednesday, December 9, 1987
- Luminaria's Restaurant  
3500 Ramona Blvd.  
Monterey Park, CA  
(213) 268-4177
- \$20.00 (includes tip)
- For reservations call  
Jerry Treiman  
(213) 620-3560

MAKE RESERVATIONS BY NOON ON  
THE FRIDAY PRIOR TO THE MEETING

- 5:30 Social Hour
- 6:45 Dinner
- 7:30 Announcements
- 8:00 Speaker
- 9:00 Section Affairs

## PROGRAM

Greg Hamer  
Engineering Geologist  
Harding-Lawson & Assoc.

A HAZARDOUS WASTE DISPOSAL SITE  
APPROVED IN CALIFORNIA

Mr. Hamer will discuss the geology  
and hydrology of a hazardous waste  
disposal site recently approved  
in California.

### SHORT TOPIC

John Byer will show us some highlights  
of the Atlanta meeting and field trip.

## ANNOUNCEMENTS

FROM CHAIRMAN DON LAMAR

The November meeting was attended by almost 200 people; the Whittier Narrows Earthquake got our attention for Doug Given's excellent talk. We thank the program chairman Jeff Holt for scheduling this timely talk on short notice. Jeff cannot promise an appropriate disaster each month, but he does promise outstanding speakers.

Although the earthquake stimulated interest for the presentation, it made the Luminaria's Restaurant unsafe for the planned meeting. Fortunately we were able to get into the Quiet Cannon Restaurant on short notice and John Byer saved the meeting by getting out an announcement of the new meeting place. Our treasurer, Jerry Treiman told those who called with reservations about the new meeting place, leaving only a few members who hadn't bothered to get reservations with an extra five miles or so in rush hour traffic.

### MORE NEWS FROM THE NOVEMBER MEETING

Eldon Gath announced that plans for the 1988 field trip are already underway. The trip will include stops along the Whittier-Elsinore Fault Zone (planned before the fault was thrust into prominence on Oct. 1) and stops at mass grading projects in southern Orange County.

Buzz Spellman explained that SB 86, which would abolish the State Board of Registration, is not dead. A preliminary hearing is scheduled for December 7 in Palm Springs. Stay tuned for further developments, and be prepared to write your Senator.

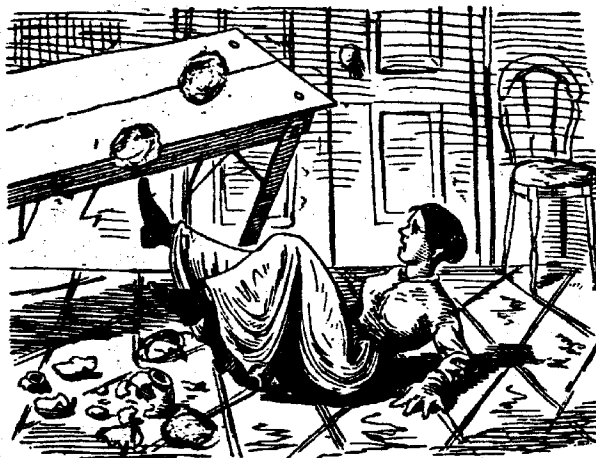

Bob Zweigler presented the short topic, which focused on damage caused by the Whittier Narrows Earthquake and provided an excellent lead-in for Doug Given's talk. Doug Given showed that the Oct. 1 quake occurred on a previously unrecognized thrust fault but the Oct. 4 aftershock occurred on a strike slip fault. He also presented data that thrust faults similar to the one that caused the Oct. 1 quake could be more common beneath the L.A. basin than we had thought.

### DEADLINES

Material for the newsletter must be received by the following dates to be included in the newsletter.

January Newsletter-----Dec. 17  
February Newsletter-----Jan. 21  
March Newsletter-----Feb. 18

Send all material to Chris Wills at the address on the newsletter banner.

## POSITIONS AVAILABLE

Engineering-Science, Inc. (ES) has immediate openings for senior and staff level hydrogeologists. Senior level applicants must have 8+ years of progressive responsibility, Calif. registration and excellent technical and communications skills. Staff level personnel must have at least 2 years of hazardous waste site characterization experience. Qualified individuals should send resume, including salary history to:

Carol Palmertree  
Engineering-Science, Inc.  
P.O. Box 7107  
Pasadena, CA 91109

Dames & Moore, an international geotechnical and environmental engineering firm, has openings in its Los Angeles and Irvine offices. A project level position is now open for a qualified civil engineer with a BSCE and MS in soils or geotechnical engineering. A California P.E. or all prerequisites for license is required. The successful candidate should have 3+ years site investigation, landfill/solid waste, site remediation experience and strong writing and verbal communication skills. Send resume and salary history/objectives to:

Dames and Moore, Dept AM  
911 Wilshire Blvd, Suite 700  
Los Angeles, CA 90017

McClelland Engineers, Inc., Ventura Division, has immediate openings for experienced engineering geologists, and chemical engineers. The successful applicants will have a Masters degree in their fields, five years of progressive responsibility, and excellent technical and communications skills. Engineering geologists should be CEG and have Southern California project experience in slope stability/hillside grading, hazardous waste site studies, fault/seismicity evaluation, distressed property remediation or environmental impact studies. Please send resume, including salary history to:

McClelland Engineers, Inc.  
2140 Eastman Ave.  
Ventura, CA 93003  
Attn Mike Ploessel
