AEG's 50th Annual Meeting, September 24-29, 2007, Sheraton Universal, Los Angeles, CA

This announcement is repeated in the current newsletter as another reminder to the AEG membership to the Golden Anniversary of AEG. A few folks responded to the earlier announcement, but more comments would be appreciated.

First, we need a meeting theme and a logo to go with it. The 48th Annual Meeting "Under the Neon" in Las Vegas is coming up in two weeks. At that meeting, of course, we will hear about the 49th Annual Meeting "From Till to Fill" in Boston. The Southern California Section needs to have the theme, logo, and some general ideas about technical sessions, symposia, field trips, and social events in a form to be presented to the attendees in Boston.

AEG's Outstanding Environmental and Engineering Geologic Project Award requires quite a bit of lead time. It does not have to be a local, Southern California project, but I suspect that some qualified projects are in our backyard. The Outstanding Project Award in 1995 went to the West Coast Basin, Dominguez Gap, and Alamitos Seawater Intrusion Barrier System, Los Angeles, California. Check out page 49 in your January 2005 AEG News 48 (Annual Report and Directory) for past projects and criteria for nomination.

I am looking forward to working with a bunch of you Southern California Section AEG members to put on a memorable 50th Annual Meeting for the Association membership. A few folks have indicated willingness to participate, but more are needed. Please get in touch with me with any ideas and suggestions at the address listed below.
