the Superconducting Supercollider

MEMBER NEWS

FROM HUGH ROBERTSON, LEGISLATION
COMMITTEE CHAIRMAN

LEIGHTON AND ASSOCIATES

has announced that founder and Chairman of the Board, F. Beach Leighton will retire July 31, 1988. Bruce Clark, president, commented on the retiring Chief Executive Officer " In more than thirty years of research and consulting, Beach Leighton's career has touched and benefitted most of us who live in Southern California. It would not be an exaggeration to say that this man has influenced the course of an entire profession."

The following bills which may have some impact on our profession are making their way through the legislature.

Certificate of Merit Law:
This existing law, which is designed to provide design professionals with some measure of protection from frivolous or unfounded malpractice actions, is due to "sunset" on 1/1/89. Various professional engineering and geotechnical groups are working to extend the statute. The law requires that before filing a complaint, the Attorney representing the plaintiff must certify that a qualified design professional of the same discipline has been consulted as to the merits of the complaint. Please provide comments as to whether you support extending the Certificate of Merit statute beyond its sunset date.

ANNOUNCEMENTS

GEOLOGY REGISTRATION EXAM REVIEW:

The original exam review courses offered by REG REVIEW are full, so a third and final 1988 course has been added in Los Angeles. The two parts of course 3 will be held from 10 am to 3:30 pm on July 10 and August 7. Preregister by sending name, address, phone number and a check for \$198 registration fee made out to Patti Osieki at 411 Alger Drive, Palo Alto, CA 94306. Late registration fee (after July 3, 1988) is \$250. A study manual (included in the course price) is available separately for \$75. For additional information call Patti Osieki (415) 494-3479 or Lisa Dirth (415) 658-6878.

SB 617-Green would give private engineers hired as plan checkers by public agencies and building departments the same immunity as the agency plan checkers. It has been suggested that AEG support amending this bill to add geologists. any comments?
